DETAILED ACTION

1. This communication is in response to the application filed on December 31, 2003

Claims 1-173 are pending in this Office Action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-57 and 60-173 are drawn to a method and an apparatus for updating the public data by cooperatively posting data from the private representative states, classified in class 707, subclass 203.
 - II. Claims 58-59 are drawn to directed to a machine readable medium for repeatedly attempting to obtain a privilege to write to the public data until the privilege is obtained, classified in class 707, subclass 9.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as s updating the public data by cooperatively posting data from the private representative states. See MPEP § 806.05(d). Invention in Group II has separate utility and requires a machine

readable medium for repeatedly attempting to obtain a privilege to write to the public data until the privilege is obtained.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
